### ABOUT ME

Fullstack web developer with strong knowledge in both frontend and backend. I am a very self-taught person, always looking for personal and professional growth. I possess strong leadership, adaptability and communication skills, as well as excellent logic and problem solving skills. My main technologies include TypeScript, React, Next.js, Nest.js and SQL. Although I focus primarily on web development, I also have knowledge in several areas of programming.

### TECHNOLOGIES

TypeScript - Java - Python - SQL - Tailwind - MUI - React - Next.js - Nest.js - Express.js - Git - Docker

### EXPERIENCE

#### Fullstack Web Developer (Present)

Ombia S.A.S.

- Developed modern web applications using TypeScript, Next.js, NestJS, React, and Express.js.
- Built dynamic, accessible, and responsive user interfaces with MUI and Tailwind CSS, focusing on performance and user experience.
- Designed and implemented robust RESTful APIs using JWT and Passport for secure authentication and scalability.
- Managed PostgreSQL databases with TypeORM and Sequelize, and performed direct data analysis using raw SQL for insights and troubleshooting.

#### Frontend & Backend Developer (Proyecto CRM)

Freelance

- Designed and developed frontend interfaces using React and Next.js, implementing accessible and responsive layouts from a prototype and consuming API routes to retrieve backend information.
- Built REST API routes with Express.js on the backend to access, process, and filter data from a database.
- Analyzed and cleaned data directly in the database using SQL, optimizing data access and management from the backend.

### EDUCATION

#### Universidad del Norte

Systems and computer engineering. Barranquilla, Colombia

Jan 2021 - Current (9th Semester)

### ACHIEVEMENTS AND AWARDS

Generation E Excellence Scholarship - ICFES 2020 Tests

### SKILLS

Leadership  
Adaptability  
Communication

### LANGUAGES

Spanish  
English
