ABOUT ME

Fullstack Web Developer with strong knowledge in frontend and backend, specialized in TypeScript, Python, React, Next.js, NestJS and SQL. Experienced in building scalable and responsive web applications from planning to implementation, with a proven track record delivering projects both independently and in teams, as well as leading and managing development teams. I am self-taught, adaptable, and growth-oriented, with strong leadership, communication, logic, and problem-solving skills.

TECHNOLOGIES

TypeScript - Python - SQL - React - Next.js - Nest.js - FastAPI - Git - Docker - AWS - GitHubActions

EXPERIENCE

Fullstack Web Developer (Full-time)

Feb 2025 - Agu 2025

Ombia S.A.S.

- Developed modern web applications using TypeScript, Next.js, NestJS, React, and Express.js, with responsive UIs built in MUI and Tailwind CSS, focused on performance and accessibility.
- Designed and implemented secure, scalable RESTful APIs with NestJS, JWT and Passport, and managed PostgreSQL databases using TypeORM and Sequelize.
- Deployed Docker containers to set up and manage databases in local and testing environments, optimizing configuration and project deployment.
- Delivered projects both independently and in teams, leading development efforts, managing teams, and directly engaging with clients to analyze requirements and plan projects.

Frontend & Backend Developer (Proyecto CRM)

May 2024 - Sep 2024

Freelance

- Worked directly with the client to gather requirements, propose solutions, and define the project scope and planning.
- Developed responsive and accessible frontend interfaces with React and Next.js, transforming prototypes into functional views and integrating backend APIs.
- Built REST API routes with Express.js and optimized database interactions with SQL through data cleaning, analysis, and efficient queries.

EDUCATION

Universidad del Norte
